Masters thesis under Dr. Arghya Mondal   IISER Mohali

⋆ Mostow rigidity theorem for locally symmetric spaces of non-compact type

Academic interests

My primary interests lie in

- Differential geometry: Riemannian manifolds, symplectic manifolds and Lie groups
- Dynamics on manifolds: Hamiltonian flows, geodesic flows and ergodic theory
- Symmetric spaces of non-compact type, their boundaries and rigidity of locally symmetric spaces

I have done coursework and reading/also am interested in the following areas

- Symplectic geometry and Hamiltonian flows
